

Domain & Email Setup Proposal

What We Need

We need to purchase the domain **iremeon.com** and set up professional email addresses like **contact@iremeon.com** for our landing page that's currently hosted on Netlify.

Two Options to Consider

Option 1: Just Buy Domain + Email (RECOMMENDED)

What you get:

- Domain: iremeon.com
- Professional email: 1 mailbox with 10GB storage
- Keep our current Netlify hosting (no change)

Cost:

- Domain registration: \$12/year
- Business Email: \$0.99/month (\$11.88/year)
- **Total Year 1: \$23.88** (less than \$2 per month)

Why this is better:

- Cheapest option - only pay for what we actually need
 - Simple to set up - just point the domain to our Netlify site
 - Easy to add more email addresses later at \$0.99/month each
 - No wasted money on hosting we won't use
-

Option 2: Buy Hosting Package (includes domain + email)

What you get:

- Shared hosting plan from Hostinger
- Free domain (iremeon.com) for first year
- 2 email accounts free for first year

- Web hosting we won't use (we're already on Netlify)

Cost:

- Year 1: \$32.28
- Year 2+: ~\$52-62/year (domain renewal + email becomes paid)

Why this costs more:

- Paying for web hosting we don't need (redundant with Netlify)
 - Higher costs after first year
 - More complicated - managing two hosting providers
-

Our Recommendation: Option 1

We recommend simply buying the domain and email service.

Here's why it makes sense:

- Saves \$8-10 in the first year
 - Saves \$20-30 every year after that
 - We keep everything simple with Netlify hosting our site
 - We get exactly what we need, nothing extra
-

What Happens After Approval

Week 1:

1. Purchase iremeon.com domain from Hostinger
2. Purchase Business Email package (1 mailbox)
3. Connect domain to our Netlify site (simple DNS setup)
4. Create email account (e.g., contact@iremeon.com)

Week 2:

5. Test everything works properly
6. Go live with new domain and email

Total setup time: 1-2 weeks

Monthly & Annual Costs

What We're Paying For	Per Month	Per Year
Domain (iremeon.com)	\$1.00	\$12.00
Business Email (1 mailbox)	\$0.99	\$11.88
TOTAL	\$1.99	\$23.88

Need more email addresses? Each additional mailbox costs \$0.99/month

- Example: team@iremeon.com, support@iremeon.com, etc.
-

What Our Money Gets Us

- ✓ Professional domain: iremeon.com
 - ✓ Professional email: yourname@iremeon.com
 - ✓ 10GB email storage per mailbox
 - ✓ Reliable email hosting
 - ✓ Our site stays on Netlify (fast and reliable)
 - ✓ Easy to manage everything
-

Bottom Line

For less than \$2 per month, we get a professional domain and email without paying for services we don't need. This is the smart, cost-effective choice.

Ready to move forward? Just give approval and we'll get started.
